

On a Roll

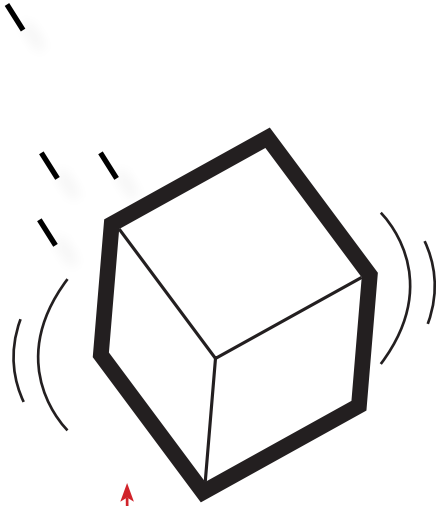

This tool is good for thinking about an issue from different perspectives.

ON A ROLL

Identifying how to get communities involved in the most efficient way. Rolling the dice encourages the user to think laterally.

Write on the faces of the dice different perspectives of an issue.

Roll the dice and answer the questions.

This tool was co-designed by partners of the Bay Health & Care Partners working with Leapfrog, a research project based at Lancaster University

Suggestions for use

Set a time limit where each person has a set amount of minutes to answer a question after rolling the dice. This will keep momentum up and allow for equal contributions.

Evaluate ideas from different angles e.g. Who does this idea involve? What is needed to accomplish it? How are we going to...?

Ask participants to use blu-tack or coins stuck to the inside of the dice face to 'weight' the dice in favour of the most important issues to encourage a variety of contributions on the important or challenging questions.
