

EVENT JIGSAW

Reach out for people, skills and ideas to make events happen

Don't limit yourself to only the resources available within your organisation when planning an event! Use Asset Map to uncover resources and ideas within your community and engage people with your event from the start.

Co-designed in Scotland

This tool is co-designed with members of community organisations on the Isles of Mull and Iona, and the Kyles of Bute.

For more information, visit:

Draw a shape following the dotted lines and write your ideas and contact details in it!

Can you help...?
FOR
EASTER
FESTIVAL

Live music

TIP:
Works well with
Role Bingo!

Please let us know if your jigsaw came together!

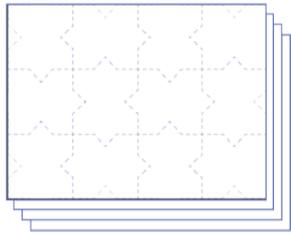

Once you've given this tool a try,
text **Leapfrog** to **07537 414393**
to answer 5 simple questions.

Flower crow
teach

YOU WILL NEED:

1 x Can you help sheet

At least 8 x Content sheets

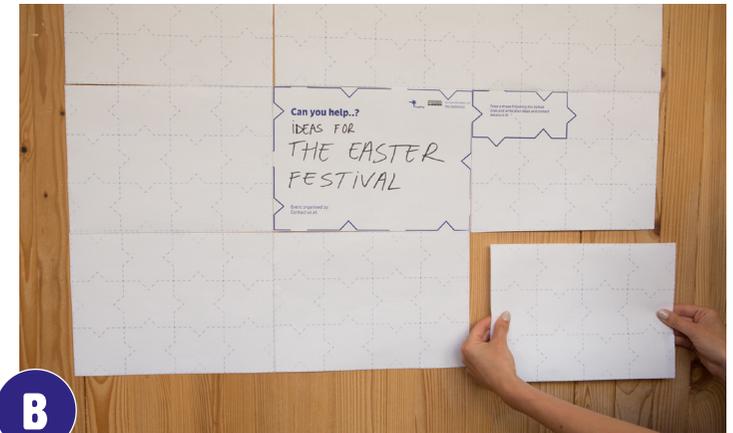

Tape to stick the tool to a wall

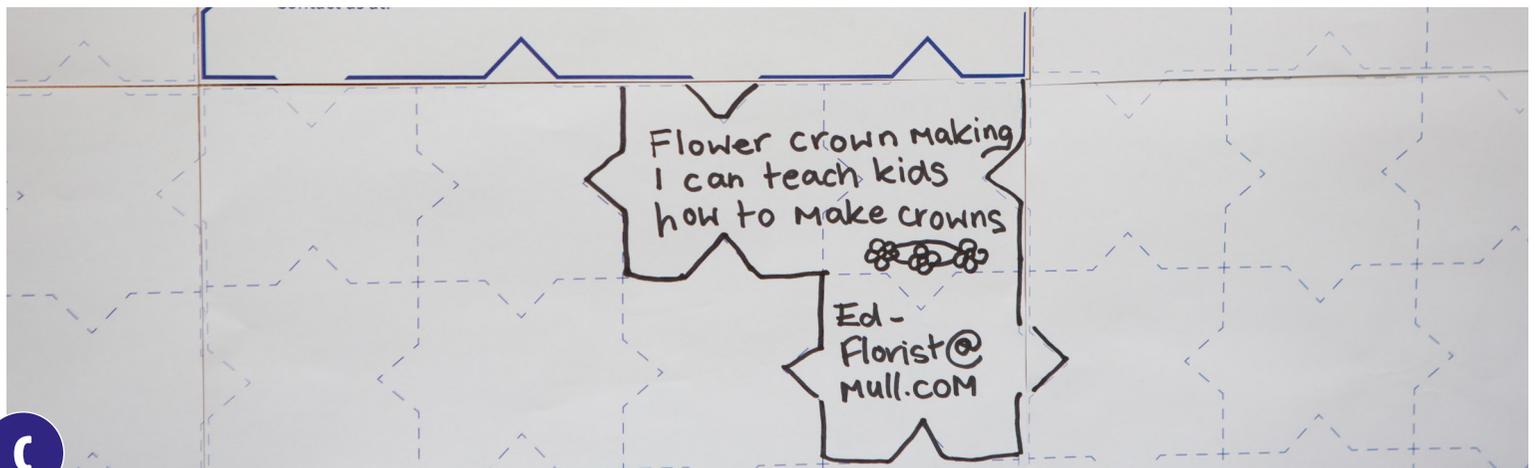

Pens for people to write on the tool

Get the central **Can you help sheet** and write an engaging description of what you want to do, and why you need help.

Stick it on the wall, then add as many **Content sheets** around it as you wish. Line up the grid to make an inviting canvas for responses.

Add a one or two strong examples to the jigsaw. These could be a real example from someone who has already offered help, or it could be entirely made up. Examples will help people understand how to contribute and help get the ball rolling.
