

Evaluation Meter

Take a snapshot of a service

Tool Guide:

The Evaluation Meter tool is a really quick, simple and visual way to gauge just how someone rates the service they have used, and to use at the start of a conversation. It was designed to help service providers to capture a really quick snap shot of how a service user rates a service.

The A4 tool can be downloaded and printed out. On the meter, the user can either mark on using stickers, colour in or circle where they would rate a service they have used.

We think the tool is a great way to start a conversation about someone's experience of a service.

Evaluation Meter is an interactive evaluation tool co-designed by the Glasgow School of Art and health care professionals who work with adults with learning difficulties across the Highlands of Scotland.
